Other remarks

Name(person requesting booking):

IMPORTANT: Please note that the cut-off time is Friday 16:00 hours, sealed container(s) and custom document(s) should be delivered at resp. the port and the Agents office before that time

VSH will check the weight of export containers at random. In case the weight of the cargo is more than the allowed payload of the container, the shipper will have to pay the weighing costs and remove the excess cargo before the container will be loaded on a vessel. If the weight of the cargo of one container in a shipment is above the payload, all the containers in the shipment will be weighed at the cost of the shipper.
